

Pentru ca programul Evo Xperience sa ruleze fara probleme pe Windows Vista, trebuie sa urmati pasii de mai jos:

Varianta 1 – se foloseste pentru a activa modul administrator pentru toate programele rulate pe calculator:

1. Activarea permanenta a modului administrator pe Windows Vista - trebuie sa intrati in Start (icoana stanga jos) si sa selectati “Control Panel” -> ar trebui sa va apara o fereastra ca cea de mai jos:

Trebuie sa selectati mai intai din partea stanga "Clasic View", dupa care sa selectati "User Accounts". Va va aparea o fereastra ca cea de mai jos:

Selectati "Turn User Account Control on or off".

In fereastra aparuta, scoateti bifa la “Use User Account Control (UAC) to help protect your computer”.

Turn on User Account Control (UAC) to make your computer more secure

User Account Control (UAC) can help prevent unauthorized changes to your computer. We recommend that you leave UAC turned on to help protect your computer.

Use User Account Control (UAC) to help protect your computer

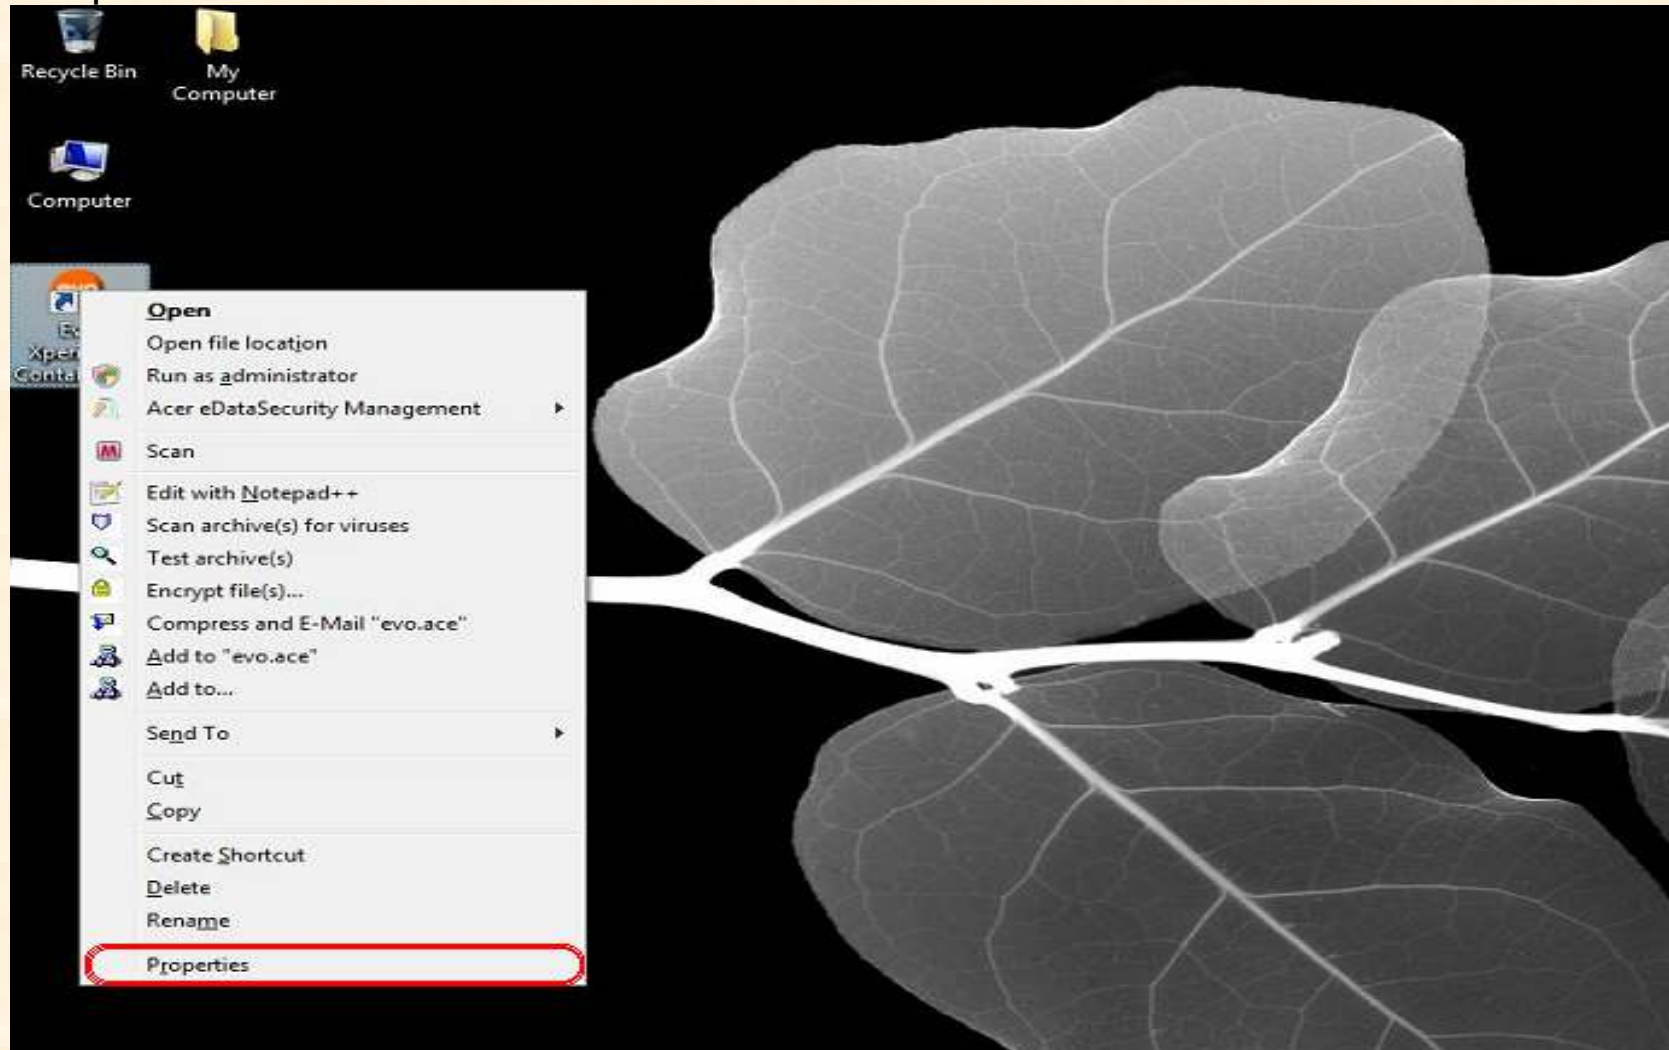

OK

Cancel

Varianta 2 – se foloseste pentru a activa modul administrator doar pentru un singur program rulat pe calculator.

1. Se apasa "Click dreapta" pe icoana programului EvoXperience si se selecteaza optiunea "Properties".

2. In fereastra aparuta selectati din partea de sus pagina (tab-ul) "Compatibility" si bifati "Run this program as an administrator".
